Hercules-Dehydrated Yeast (500g)

Product Description			
Hercules Dehydrated Yeast is developed by WHC Lab.			
Hercules is a newly developed distillers yeast that produces complex congeners including dark fruits, and leather. Perfect for grain-based spirits that will be barrel-aged to add to the complexity of the spirit produced from the wash. This yeast is characterized as having fast and reliable fermentation, making it a great house whiskey strain.

Hercules Dehydrated Yeast is available in 500g and 10kg vacuum-packed silver foil packs. This material complies with relevant food-contact legislation, including, EU Regulation 1935/2004 (materials intended for contact with food), EU Regulation 1245/2020 (plastic materials intended for contact with food)), EU Regulation 2023/2006 (GMP for materials intended for contact with food), and FDA CFR 21 (174-179) (USA).	
Storage and Handling	
Storage Conditions:	Store at cool to ambient temperatures (ideally 5°C to 15°C), dry, and well-ventilated environment.
Shelf life:	3 years from date of production, if vacuum seal is not broken, and if stored as outlined above.
Handling:	Once opened, re-seal to keep out air and water. For best results, store re-sealed packs in a refrigerator (0°C to 10°C) and use promptly. Please note expiry date on packs prior to opening. Note: When added to water or a water solution, Hercules Dehydrated Yeast releases CO ₂ , especially on substrates high in sugars or starch. Ensure adequate ventilation to keep levels below advised exposure limits. Please refer to the Material Safety Data Sheet/MSDS for further advice.
