Description

Lovely Bubbly Dry Yeast is developed by WHC Lab.

A selected strain that provides a very clean fermentation with minimal sulphur production. The elegant and clean strain allows the grape to play center stage in the final product.

Style

Champagne

Guidelines

Oxygenation and/or rehydration may not be needed for generation 0 but may be beneficial. It is recommended to have a pitch rate of at least 0.2g/l of wort for a standard gravity brew (1.045). Pitch rate is between 0.2-0.4g/l of wort.

The intended fermentation temperature range is 12°C to 30°C [54°F to 86°F].

Ingredient Declaration

Yeast: 98.8% to 99.2%

Emulsifier E491 (Sorbitan Monostearate): 0.8% to 1.2%

This material complies with relevant food-contact legislation, including, EU Regulation 1935/2004 (materials intended for contact with food), EU Regulation 1245/2020 (plastic materials intended for contact with food)), EU Regulation 2023/2006 (GMP for materials intended for contact with food), and FDA CFR 21 (174-179) (USA)

Storage and Handling

Storage Conditions:	Store at cool to ambient temperatures (ideally 5°C to 15°C or 41°F to 59°F), dry, well-ventilated environment.
Shelf life:	3 years from date of production, if the vacuum seal is not broken, and if stored as outlined above.
Handling:	Once opened, re-seal to keep out air and water. For best results, store re-sealed packs in a refrigerator (0°C to 10°C or 32°F to 50°F) and use promptly. Please note the expiry date on packs prior to opening. When added to water or a water solution, Achilles Dry Yeast releases CO₂, especially on substrates high in sugars or starch. Ensure adequate ventilation to keep levels below advised exposure limits. <i>Please request a Material Safety Data Sheet/MSDS for further advice.</i>
