

Technical Data Sheet

WHE Lab Yeast Nutrient Plus

Product

Product Name: **WHE Lab Yeast Nutrient Plus**

Product Description

Our latest yeast nutrient formulation has been developed after extensive trialing on our yeast strains. It is a yeast-based product containing inactive yeast, and it has been proven to standardize and speed up yeast fermentations.

It helps to provide the yeast with essential micro-nutrients that may be missing or insufficient in the wort. This increased availability of micro-nutrients leads to improved yeast viability and vitality, allowing you to use the yeast for even more generations without any decrease in quality. We highly recommend this product to all brewers looking to optimize their fermentation process.

It contains sterols, biotin, zinc, and other micronutrients that are normally missing from other yeast nutrient products commonly found on the market.

Product Benefits

- Improved yeast viability and vitality
- Increased fermentation speed and consistency
- Standardized fermentation process
- Enables the use of yeast for more generations without any drop in quality
- Enhances overall beer quality

Specification

Strain: *Saccharomyces cerevisiae*
Yeast Cells: >1.5-3.5 billion cells per ml

Guidelines

The recommended dosage of WHE Lab Yeast Nutrient Plus is 1-2g/hl of wort. It can be added directly into the kettle near the end of the boil or premixed with water and poured directly into the fermenter. This product should be stored in a cool, dry place, away from direct sunlight.

Packaging

WHE Lab Yeast Nutrient Plus is available in 5kg packages. This material complies with relevant food-contact legislation, including, EU Regulation 1935/2004 (materials intended for contact with food), EU Regulation 1245/2020 (plastic materials intended for contact with food), EU Regulation 2023/2006 (GMP for materials intended for contact with food), and FDA CFR 21 (174-179) (USA).

Storage and Handling

Storage Conditions:	WHE Lab Yeast Nutrient Plus should be stored in a cool, dry place, away from direct sunlight, and moisture. The product should be tightly sealed after each use to maintain its quality.
Shelf life:	The expiration date for WHE Lab Yeast Nutrient Plus is 3 years from the date of manufacturing. It is recommended to use the product within 6 months of opening the package for optimal results.
Handling:	WHE Lab Yeast Nutrient Plus is a safe product to use if handled properly. Avoid inhalation of dust. In case of eye rinse with plenty of water and seek medical advice if necessary. Keep out of reach of children and pets.
